

TECHNICAL DATA SHEET UV REACTA UP 5000

PRODUCT LINE

| | |
|------------|-------------------|
| 41 UP 5000 | UV REACTA YELLOW |
| 42 UP 5000 | UV REACTA MAGENTA |
| 43 UP 5000 | UV REACTA CYAN |
| 49 UP 5000 | UV REACTA BLACK |

APPLICATION

The **UV Reacta UP 5000** is an ITX – Free formulation for printing on non-absorbent substrates while maintaining the ink/water balance properties of ink expected for printing on absorbent substrates. The formulation makes this product suitable for many post-printing process such lamination and similar processes.

The Reacta UP 5000 has also been formulated for application on both sheet-fed and web applications with no misting and excellent press stability.

SPECIAL CHARACTERISTICS

- Excellent adhesion to non-absorbent substrates
- High Colour Intensity
- Rapid adjustment to ink/water balance
- Quick Curing
- Suitable for both inter-station curing and wet trapping
- Suitable for both web and sheet-fed applications

PACKAGING

Plastic Containers 2.5 kg 5.5 lb
